BHUVISHA GOHIL

Data Analyst Intern

bhuvishagohil07@gmail.com | 81864386 | GitHub, VS | github.com/bhuvishag07 | linkedin.com/in/bhuvisha-gohil-a81864386

PROFESSIONAL SUMMARY

Second-year B.Tech Computer Science student with hands-on experience building a Python-based threat-analysis dashboard and multiple full-stack projects. Proficient in Python, SQL, pandas, and data manipulation, with solid foundation in algorithms and software development. Seeking a Data Analyst Intern role to apply analytical skills to real-world datasets.

TECHNICAL SKILLS

Languages & Frameworks: Python, SQL, JavaScript, Java, C++, C

Data Analysis & Visualization: pandas

Frontend: HTML5, CSS3, React.js, Vite, Tailwind CSS

Backend: FastAPI, Node.js, Express.js

Databases: MongoDB, PostgreSQL, Firebase

Tools: Git, GitHub, VS Code, Figma, Canva

KEY PROJECTS

SmartRide — Carpool Simulation System

Technologies: **C++, Data Structures and Algorithms**

- Developed a carpool simulation that groups riders, assigns vehicles, and computes optimal routes using custom data structures and algorithmic techniques.

WellnessAtWork — Corporate Employee Wellness Platform (in progress)

Technologies: **React, Vite, Tailwind CSS, Node.js, Express.js, MongoDB, JWT, Socket.io, Firebase**

- Developed responsive React frontend featuring challenges, activity logging, points, leaderboards, rewards, and mental-wellness resources.
- Designed component architecture to enable future integration with planned Node.js/Express backend and real-time features via Socket.io.

Milestone Hub — Goal and Productivity Tracker

Technologies: **React.js, JavaScript**

- Built a single-page goal-tracking application with dashboards for goals, milestones, tasks, analytics, timelines and progress visualization.
