JUI TAWDE

Aspiring Data Analyst | Python & SQL | Full Stack Development Background
juitawde23@gmail.com | +91 7972400637 | Mumbai, India | linkedin.com/in/jui-tawde-788210385 | github.com/juitawde

PROFESSIONAL SUMMARY

Second year Computer Science Engineering student with solid Python and SQL fundamentals and a proven track record building full stack applications. Experienced in designing REST APIs, handling JSON data, and working with relational and NoSQL databases. Strong analytical thinking demonstrated through complex data structure projects and problem solving coursework. Eager to apply programming and data handling skills to real world analytics challenges.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, Java, C++

Databases: SQL (Fundamentals), PostgreSQL, MongoDB

Web Development: React.js, Node.js, Express.js, Socket.IO, HTML5, CSS3

Tools & Version Control: Git, GitHub, VS Code, Vercel, Render

Core CS Foundations: Data Structures and Algorithms, Object Oriented Programming, Problem Solving

PROJECTS

MemGrid — Distributed Shared Memory Simulator
Technologies: C++, AVL Trees, Hash Maps, Graphs, Priority Queues, Dijkstra's Algorithm | Link: GitHub
- Simulated distributed memory access patterns and optimized node communication using graph algorithms.

Quiz Arena — Real-Time Quiz Platform
Technologies: JavaScript, Node.js, Express.js, Socket.IO, MongoDB | Link: Live Demo | GitHub
- Built server side scoring logic and persisted quiz results in MongoDB, enabling data driven leaderboards.
- Managed user authentication and history retrieval through structured queries.

Chatterly — Real-Time Chat App
Technologies: React, TypeScript, Node.js, Express.js, MongoDB, Socket.IO | Link: Live Demo | GitHub
- Developed full stack messaging system with real time data exchange and media handling.
- Implemented search and filtering features that required efficient database queries.

EDUCATION

ITM Skills University 2025 – Present (2nd Year)
Bachelor of Technology (B.Tech), Computer Science Engineering

CERTIFICATIONS & CREDENTIALS

- Data Structures & Algorithms
- Object-Oriented Programming
- Database Fundamentals
- Software Engineering
- Web Development
- Operating Systems
